News Release

PROCURRI CONTINUES GROWTH WITH EXPANDED PRESENCE IN MARYLAND & CHICAGO

Procurri strengthens market presence in Americas with new sales offices to serve thriving technology industry in the Mid-Atlantic states & Illinois

Singapore, 1 June, 2016 - Procurri, the leading global independent provider of data centre equipment and lifecycle services, announced today that the company has expanded operations in Maryland and Chicago. The new sales offices target to provide enhanced services to Procurri's existing partners in the region, and to serve Value-added Resellers (VAR), Cloud and Managed Solution Providers (CSP/MSP), Data Centre Providers, as well as other major technology companies in the Mid-Atlantic states – including New York, New Jersey, Pennsylvania, Delaware, Maryland, Washington D.C., Virginia and West Virginia.

In addition to the Mid-Atlantic region, Procurri's focal point is on Chicago, a burgeoning technology hub slated to be the 'Silicon Valley of the Midwest'; with its growing number of technology incubators and startup community¹. The Group also plans to expand its reach into the public sector, serving government contractors, large system integrators and government resellers in the region.

"Strengthening our market presence in the Mid-Atlantic States and Illinois is a key component of our growth strategy in Americas; contributing to our extended network globally," states Edward Flachbarth, Procurri's Global President. "The region has attracted numerous IT companies and is primed for exponential growth. We are ecstatic to be in the forefront of this development, serving as the preferred global provider for data centre equipment and lifecycle services."

He adds, "Our expanded operations in the region will provide us with the opportunity to further penetrate into the high growth market, and the added presence promises more responsive services and improved support to our existing clients, solidifying our relationships with our channel partners."

Representative to the Group's global growth strategy, Procurri's recent expansions include new offices in Mexico and China. The Group maintains its global headquarters in Singapore, and offices across Malaysia, the United Kingdom, and America.

About Procurri Corporation

Beginning with the end in mind to lead the global market in providing enterprise data centre equipment and services, Procurri derives its name from the Latin word 'procurro', which means 'leading the pack'. Headquartered in Singapore, Procurri has an extensive reach spanning more than 80 countries, and serves as an aggregator for enterprise hardware and services globally. This is achieved through our distinctive competencies across our converged network that spans the technology, finance, and logistics domains, which are driven by our visionary approach to business.

As a leading global independent provider of data centre equipment and lifecycle services, Procurri has demonstrated success in solving data centre challenges across all major industries. Our commitment to business excellence is underscored by our worldwide footprint, sound methodology, highly-experienced professionals and process-driven support infrastructure. With a single-minded approach in support and service delivery, we offer consistent quality services and value throughout the globe, providing you with desired business outcomes.
